

**Hurricane Harvey  
ESF – 10  
Unified  
Incident Action Plan  
(IAP-4)**

**Operational Period:  
Starting: 09/03/2017 @ 0700  
Ending: 09/04/2017 @ 0700**

<b>1. Incident Name:</b>  Hurricane Harvey – ESF 10 Texas	<b>2. Operational Period: (Date / Time)</b> From: 09/02/2017 @ 0700 To: 09/03/2017 @ 0700	<b>INCIDENT OBJECTIVES</b> ICS 202 - EPA															
<b>3. Incident Objective(s):</b> <ul style="list-style-type: none"> <li>Provide for the safety, welfare and security of response personnel.</li> <li>Maximize the protection of public, health, and safety.</li> <li>Identify affected drinking water and wastewater systems in each area, evaluate the systems to determine their operational status and facilitate system contact with Federal, State, and Local agencies (provide technical assistance).</li> <li>Conduct wide area assessment to identify orphaned containers equal to or greater than 5 gallons, potential or actual discharges from vessels and/or facilities, and document the most effective means for recovery or mitigation in accordance with Natural Disaster Operations Workgroup protocols.</li> <li>Prioritize, mitigate/recover product, and monitor identified pollution targets.</li> <li>Assess DHS critical infrastructure and RMP/FRP facilities for damage and immediate/ongoing releases.</li> <li>Identify secure areas to process and temporarily store for subsequent recycling, disposal, or return to original owner displaced orphan containers, above ground storage tanks, hazardous waste, and vessels.</li> <li>Identify locations and establish ESF 10 ICP, Branches, and Staging Areas commensurate to the size and scope of the incident.</li> <li>Establish and maintain a common operating picture (COP).</li> <li>Identify and maximize protection of environmentally sensitive areas and threatened species.</li> <li>Manage a coordinated interagency response effort that reflects the composition of the Unified Command.</li> <li>Establish an IMT that can meet the initial and long-term challenges required for incident mitigation.</li> <li>Inform the public, stakeholders, and the media of response activities.</li> <li>Ensure appropriate financial accounting practices are adhered to.</li> </ul>																	
<b>4. Operational Period Command Emphasis. (Priorities, Key Discussions/Directions):</b> <ul style="list-style-type: none"> <li>"Get them back to normal"</li> <li>All field activities will be conducted using the NDOW Standard Operating Procedures, NDOW tools, and Response Manager.</li> <li>Agencies will work in coordination under Unified Command.</li> </ul>

<b>INCIDENT OBJECTIVES</b>																	

<b>1. Incident Name</b>	<b>2. Operational Period (Date/Time)</b>	<b>Command Direction</b> <b>ICS 202A-CG</b>
<b>Hurricane Harvey – ESF 10 Texas</b>	From: 09-03-17 0700 To: 09-04-17 0700	

**3. Key Decisions and Procedures: (Ref IMH pg 4-1 to 4-2)**

**NAME OF INCIDENT:** Hurricane Harvey ESF-10 Texas

**OPERATIONAL PERIOD:** 24hour operational period

**FUNCTIONS:** Safety, Oil Spill & Hazardous Substance Release and Threats, Environmental Protection, drinking water and waste water facility assessment.

**ASSISTING & COOPERATING AGENCIES:** EPA, TCEQ, TGLO, USCG, NOAA, CST, Austin Police, USFW, TPWD

**ORGANIZATION:** (Consider Shift Work)

- **AGENCY EXECUTIVE(S): FEMA JFO**
- **INCIDENT/UNIFIED COMMAND:** EPA is the lead agency for ESF-10 and USCG is Deputy to support state of TX in accordance with NRF. The ESF-10 Unified Command consists of TGLO, TCEQ, EPA and USCG.
- **COMMAND STAFF:**
  - PIO – EPA, assistants as necessary
  - LOFR – EPA, USCG assistant
  - SOFR – CST, ASOFR – USCG, EPA
  - NOAA-SSC
  - Legal Officer – TBD
- **GENERAL STAFF**
  - OSC – EPA with each participating UC agency as Deputy
  - PSC – EPA, with each participating UC agency as Deputy
  - LSC – EPA, with each participating UC agency as Deputy
  - FSC – EPA, Deputy USCG (for FPN mgnt)

**FACILITIES:**

- ICP LOCATION: Corpus Christi; Intend to move ESF10 ICP to centralized location (TBD).
- JIC LOCATION: Full FEMA JIC TBD
- Airport: Corpus Naval Air Station

**Delegation of Authority:**  
All Section Chiefs are empowered to staff according to the needs of the response.

**IMT Procedures/Function:** The National Response Framework, ESF10 annex, the Area Contingency Plan, and Geographic Response Plans, and TGLO tool kit will be used, as appropriate, in planning operations.  
All field activities will be conducted using the NDOW Standard Operating Procedures, NDOW tools and Response Manager  
All responders will use USCG/EPA IMH and job aids as the IMT SOP. All IMT members shall review their section responsibilities.

**UC Functionality:**  
Core hours of the UC will be from 0700 to 1900.  
UC shall approve all media releases.  
UC will approve visitation of VIPs to the response sites.  
The UC members will work with their Deputies to ensure someone is accessible 24 hours/day.

**4. Priorities: (Reference IMH pg 4-2 to 4-3)**

1. Life - Safety of Public and Responders
2. Drinking Water and Waste Water systems
3. Assessment, prioritization and mitigation and monitoring of oil and hazardous substance targets throughout impacted area utilizing NDOW protocols
4. Environmental Protection
5. Information management and situational awareness
6. Unified and efficient government support to the state of Texas

**5. Limitations and Constraints: (Ref IMH pg 4-3 to 4-4)****MANAGERIAL:**

Working under large FEMA led disaster response organization.  
Impacted area crosses 3 COTP zones; Delegation of FOSC authority pends.  
Oil response funded under separate FPNs

**POLITICAL ENVIRONMENT:**

Media Coverage: There is likely to be high media interest.  
Public Confidence/Perception  
Potential for Adverse Economic/Environmental/Health and safety Impacts:  
There has been a Large Scale Evacuation with numerous displaced citizens

**FINANCIAL:**

Funding Sources: EPA has been issued an \$8.5Million ESF10 mission assignment. EPA will manage the cost accounting for these funds.  
USCG will utilize FPNs for oil spills. USCG will manage the cost accounting for these FPNs. USCG MA is pending approval.

**LOGISTICAL:**

Multiple resource ordering processes may confuse the process.  
Lodging availability is scarce.  
Personnel must travel long distances to conduct response operations.  
Each agency will use their own logistics processes.

**OPERATIONAL/SAFETY/ENVIRONMENTAL:**

Night operations on as needed call-out basis.

**RESOURCES:** Limited Staffing Resources for adequate IMT.

**GEOGRAPHY/TERRAIN:** Impact of the event is widespread over a large geographic area. Impacts cross 3 Captain of the Port zones and entire EPA Region.

**PHYSICAL ENVIRONMENT:** Heat stress must be considered during each and every operation.  
Numerous health safety hazards.

**6. Prepared by: (Planning Section Chief)**  
**Matthew Loesel**

**HH2017COM****APPROVED Talking Points**

09/01/17

**DO:** TALK ABOUT YOUR WORK AND WHAT YOU ARE DOING; AVOID NO COMMENT

**DON'T:** TALK ABOUT OTHERS' WORK OR SPECULATE

- EPA has an organized emergency response program and is supporting FEMA, state, local and tribal partners.
- Safety is EPA's top priority
- EPA responders are full integrated in a UNIFIED COMMAND with Texas Commission on Environmental Quality and Texas General Land Office, US Coast Guard
- Flood water is contaminated. Contact should be avoided.
- EPA is supporting the response effort in several ways:
  - Drinking water and waste water staff will offer technical assistance as necessary to restore services. Teams will visit or contact facilities if needed.
  - Superfund site managers worked to secure sites before the storm. Teams are continuing to assess site conditions and determine additional actions as necessary.
  - EPA is working with state partners to assist in contacting industrial facilities, determine status and plans to resume operations
  - EPA TAGA vehicle and ASPECT plane have been deployed to monitor developing environmental impacts
- Response teams will continue to evaluate affected areas and determine necessary actions as appropriate

1. Incident Name:	2. Operational Period: (Date / Time)	“Safety Message”
Hurricane Harvey – ESF 10 Texas	From: 09-03-17 @ 0700 To: 09-04-17 @ 0700	

### Major Hazards and Risks:

Travel	Electrical Hazards	Biological Hazards	Slips, Trips, and Falls
Thermal Stresses	Hazardous Materials	Insects	Fire/Explosions
Security Fatigue	Stress	Wild & Stray Animals	Structural Integrity

**Wound Care** – Make sure that when you get a cut, scrape, and or puncture that you clean the area with antiseptic, apply some sort of topical antibiotic, and keep covered so that the wound area stays clean. Be sure to check wound daily to see that it is not getting infected. If the wound area becomes red and swollen, especially if red streaks extend from the wound, you should seek medical attention.

**Where is the Hospital?** Make sure to check the HASP and or Medical Plan (ICS Form 206) for the hospital closest to where you will be working and where you are staying. Remember if you call 911 from a cell phone you will need to provide the address of where you are located or at least an address generally in the area of where you are working before they can respond.

**Early Morning Driving Safety** – We **MUST** be very cautious while driving from our hotel to work. Be on the lookout for issues with street signage and lights! Take the time to make sure your windows and free of water or fog prior to driving.

**Don't Forget To Drink Water!** - Please bring plenty of water with you when you go out to the work-sites. Remember, if you don't drink, you'll drop like a rock! When the heat index is around 100 F drink 1 cup of water every 15-20 minutes. Generally, fluid intake should not exceed 6 cups per hour. During prolonged sweating lasting several hours, drink sports drinks containing balanced electrolytes.

**Signs and symptoms of heat exhaustion** – cool, moist skin; heavy sweating; headache; nausea or vomiting, dizziness; light-headedness; weakness, thirst; irritability; elevated body temperature; decreased urine output.

**Signs and symptoms of heat Stroke** – confusion, slurred speech; loss of consciousness; red hot, dry skin or profuse sweating, very high body temperature, seizures.

**Staging Pad Sites** – Ensure proper segregation of chemicals, utilize Cameo Chemical to determine compatibility. Refer to ICS Form 204 for additional safety instructions.

**Who To Call!** Address any Safety concerns to Reggie Book, 512-233-9330, David Eppler 214-733-4676 (214-665-3100) or Edward Primeau, 609-351-7148.

Present Moment Thinking – Think about what you are doing and not what you still have to do.

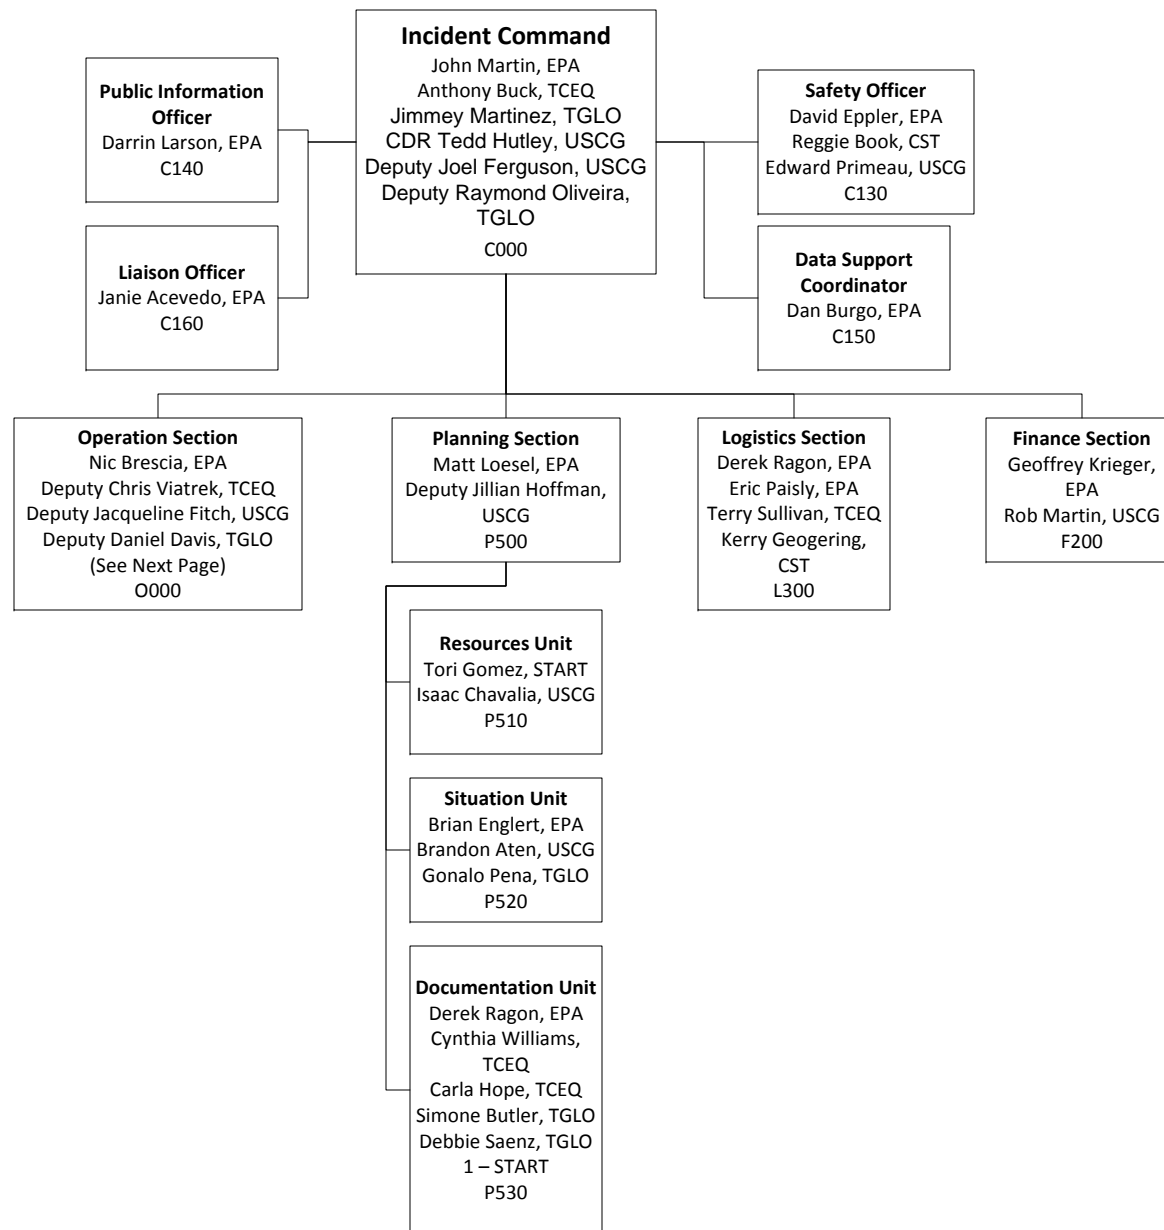

Careful when walking on wooden surfaces like stairs and docks, inspect for structural stability.

Recommend that all supervisors and team leaders conduct Operational Risk Management prior to the start of all operations. Provide rest in a cool shaded location.

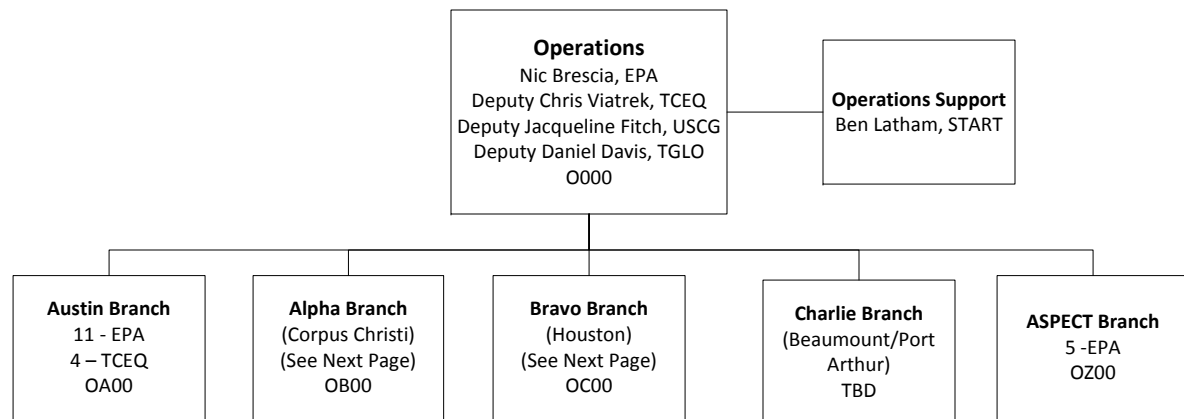

The mosquitos are increasing, ensure the use of insect repellant and reapply as directed by the manufacturer.

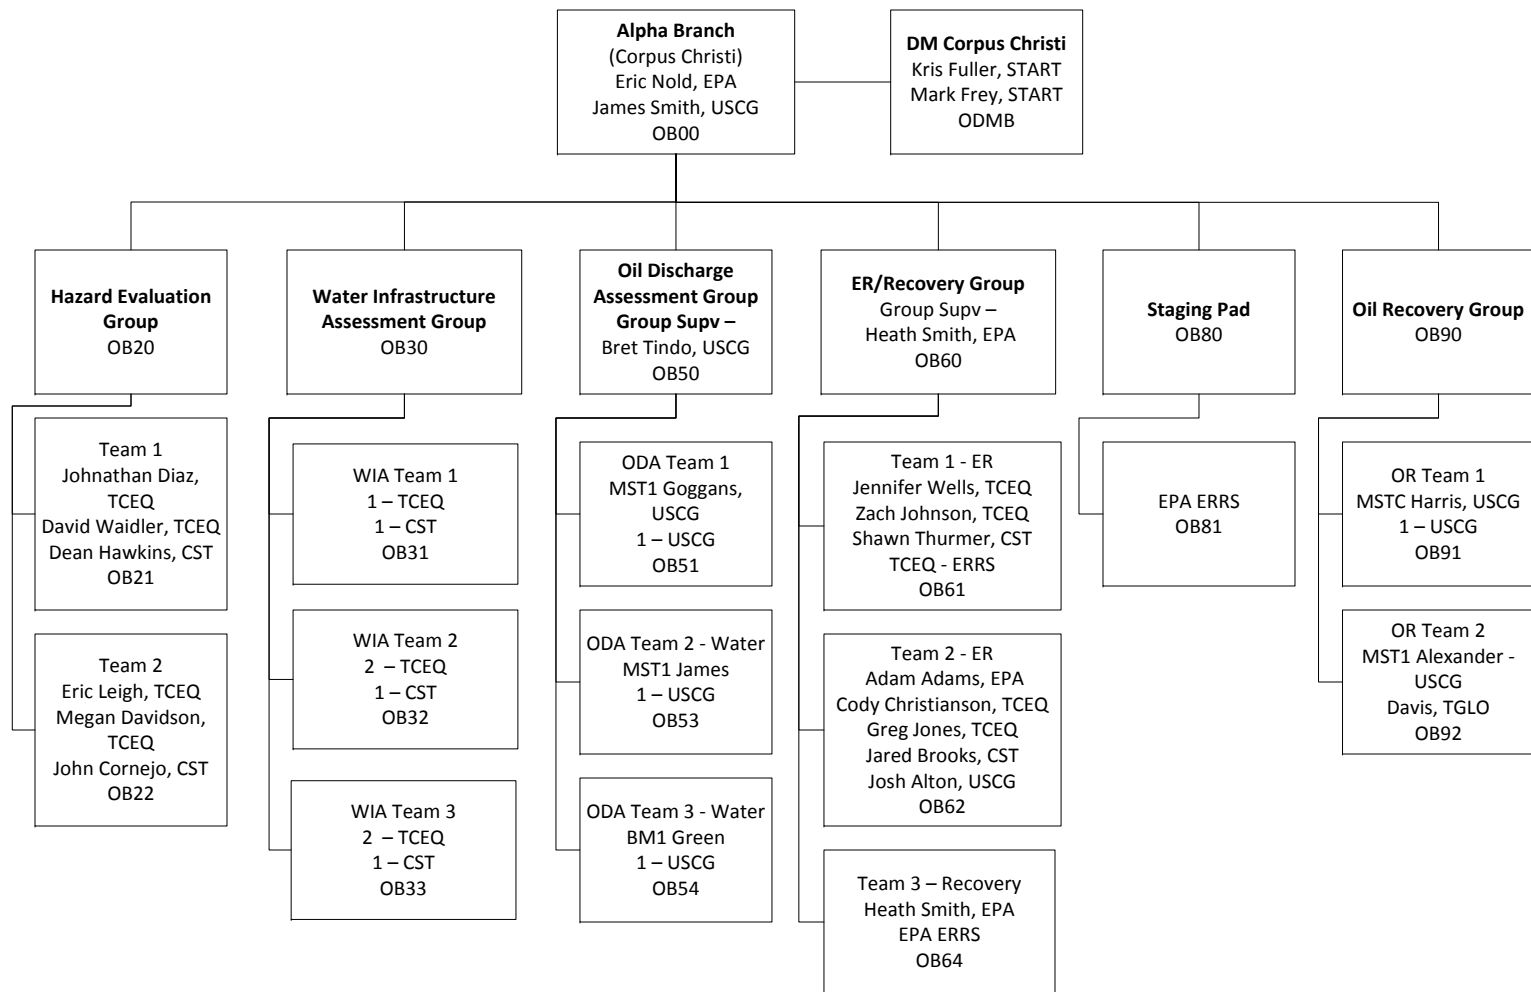

**DO NOT BECOME COMPLACIENT**

<b>7. Work Assignments:</b>					
<p>Conduct Orphan Container Recovery in Port Aransas. Containers pre-existing the disaster that are in their obvious place of origin and have not been displaced during the disaster should not be recovered unless they are leaking as a result of the disaster. Physically recover all orphan containers identified. Utilize the NDOW Orphan Container Hazard Evaluation SOP and document targets utilizing Response Manager via a Laptop/IPAD/Hazard Evaluation Field Data Sheet. All teams must download/sync assessment information daily and complete a 214B to document team field activities.</p>					
<b>8. Special Instructions:</b>					
<p>When the heat index is around 100 F drink 1 cup of water every 15-20 minutes. Generally, fluid intake should not exceed 6 cups per hour. During prolonged sweating lasting several hours, drink sports drinks containing balanced electrolytes. <b>Signs and symptoms of heat exhaustion</b> – cool, moist skin; heavy sweating; headache; nausea or vomiting, dizziness; light-headedness; weakness, thirst; irritability; elevated body temperature; decreased urine output. The action level for VOCs is 5 ppm for unknowns and half the TLV for known chemical hazards. Conduct Operational Risk Management prior to each evolution. Address any Safety concerns to Reggie Book, 512-233-9330 or Edward Primeau, 609-351-7148.</p>

## 6. Special Medical Emergency Procedures

Initial triage is completed by Health Service technicians at medical aid station when possible if needed patients are sent via ambulance to nearest medical center capable of providing higher level of care. All patients will be tracked by medical staff, with timely information being fed to the ICS chain, regarding condition, facility patient is being transferred to, and periodic updates on condition. One government vehicle is available for medical to transport CG personnel only to transport between the AIRSTA and SECTOR and make pharmacy runs etc. Current HS staff is 16 HS and 1 CG Flight surgeon to rotate site aid station at clinic.

\*\*\*Sick call services will be available 0700 TO 1600 Saturday and Sunday at Sector H/G clinic. After hours, call Duty HS at (281) 387-8998.\*\*\*

For psychological cases will use local ER as needed.
